Use case:
AMPUSAFE filled with ampoules

AMPUSAFE Ampoule Kit

Description

Space saving, robust ampoule kit designed for keeping ready the most important phials for emergency care.

Stowed in solid case (EVA hard foam) ampoules and supplies are safely stored and shock-protected. 13 elastic loops of different sizes provide space for phials with capacity of up to 10 ml. Transparent sleeve inside of top cover allows for easy recognizable stowing of important information such as dosage instructions etc.

Thanks to its large zipper pull tab the zipper can easily be opened.

AMPUSAFE is suitable for stowing inside ZIP Holster, PARA Holster or MEDIC Holster from TEE-UU. Furthermore, the ampoule kit is equipped with a 5 cm high hook and loop fastener, that allows for mounting to equipment such as emergency bag and backpacks etc.

Features:

- shock-protected with 13 elastic loops in two sizes, plastic sleeve
- zipper with large zipper pull tab
- hook-and-loop strap at backside

Scope of delivery

Ampoule kit without further or pictured supplies
