

CHECKER POUCH Cuff

Designed to make marking of searched rooms easier for you – intuitive and reliable

- ✓ intuitive: grabbing of marking straps even without looking at the cuff
- ✓ applicable: reliably operational, even when wearing gloves
- ✓ flexible: can be worn around your arm or attached to belt or gear loop

Use case:
CHECKER POUCH at arm of a firefighter

Use case with TEE-UU
CHECKER STRAPS

Inner view with elastic loops for
Stowing of marking straps

Front view with 10 slots for marking straps
and eye for carabiner

Description

Every time you grab, you grasp one single CHECKER STRAP, intuitively and reliably - this is, what the benefit of the CHECKER POUCH cuff is!

Up to ten CHECKER STRAPS can be stored in the cuff. Every single marking strap is properly stowed away into elastic loops inside of the cuff. Just the handles are at the exterior and easy to grasp.

Every strap can easily be pulled out of the cuff, no matter which order and no matter which direction you pull.

The cuff can be worn in two ways:

- around your arm as a typical cuff, perfectly fitting due to individually adjusting with hook-and-loop fastener
- attached to your belt or gear loop using a carabiner

The CHECKER POUCH cuff is the perfect equipment for marking of searched rooms, as it allows for removing of marking straps in the easiest way – even with gloves!

Features:

- 10 slots for CHECKER STRAP marking straps (9861-2508)

- inlying elastic loops for stowing of marking straps and protection against tangling up among each other
- 2 long hook-and-loop fastener for individually adjusted mounting around your arm
- 2 eyes for attaching to belt or gear loop with a carabiner

Scope of delivery

Cuff without further or pictured supplies
