

CHEST RIG SUPREME Harness

Maximum storage space and high wearing comfort combined in one harness

- ✓ no compromises: plenty of space for everything you need during prolonged operations
- ✓ new possibilities: operations with tele-ems-physician or live streaming to control center
- ✓ comfortable: padded with breathable fabric and retaining strap to prevent slipping

detailed view: use case with smartphone in device compartment

CHEST RIG SUPREME harness (TEE-UU logo is detachable)

Description

This harness features four large and two covered front compartments as well as a wide rear pocket, providing generous storage for extensive equipment. Side MOLLE loops allow flexible attachment of additional pouches. For specialized applications such as implementing a tele-emergency doctor system, a smartphone can be securely fixed in the designated chest pocket and aligned using the included adjustment wedges - ensuring reliable image capture.

Breathable mesh, padded shoulder straps and one-hand adjustable retaining strap ensure comfort and a secure fit, even during long or movement-intensive operations.

Features:

- two padded zip compartments on front for variety of devices with adjustable device fastening
- padded main compartment, right, with zipper
- bottle compartment, left, for bottles up to 0,5 l and compartment extension (hook-and-loop fastener), incl. 2 wedges for alignment of smartphone in device pocket in front of it; 2 wedges included
- 2 zipper compartments on the inside, 1 zipper compartment at rear

- fabric loop, e.g. for car keys, on front, top right
- 2 buckles, one of them with integrated whistle
- loop-tapes at front and rear for individual labelling
- retaining strap for attaching to belt loop to prevent slipping
- breathable padding and mesh fabric on the contact surfaces
- adjustable carrying straps with wide adjustment range
- TEE-UU logo detachable (hook-and-loop fastener)

Scope of delivery

Harness with retaining strap and 2 adjusting wedges; without further or pictured supplies
