

# CHEST TWIN Radio Harness

Comfortable harness with two adjustable radio-compartments

- ✓ versatile: individual adjustable compartments for radio, swivel-head torch etc.
- ✓ comfortable: less sweating thanks to breathable padding
- ✓ practical: zipper compartment for important documents

CHEST TWIN, use case

CHEST TWIN, use case with individual labeling

CHEST TWIN radio harness (TEE-UU logo is detachable)

## Description

Comfortable harness for up to two radios or other equipment. Size of both device holders is individually adjustable.

Zipper compartment (16 x 12 cm) at rear of harness allows for storage of documents, notes etc.

Breathable padding and compact design provide high wearing comfort. Infinitely variable and partially elastic carrying straps allow for individual adjustment to needs of user within a wide adjustment range.

Thanks to mounting of TEE-UU logo with hook-and-loop fastener, it can easily be removed if required e.g. due to use at field of operation etc.

Loop tape at front in between of device holders allows for individual labelling with hook-and-loop patches.

### Features:

- two infinitely adjustable radio compartments for devices with perimeter from 12 to 24 cm
- zipper pocket at rear (W x H: 16 x 12 cm) for documents etc.
- TEE-UU logo detachable, thanks to hook-and-loop fastener

- breathable padding
- individually adjustable, partially elastic carrying straps
- loop tape (w x h: approx. 9.5 x 7.5 cm) at front for labeling

## Scope of delivery

Harness without further or pictured supplies

## Special feature

TEE-UU logo detachable thanks to mounting with hook-and-loop fastener
