

# CHEST Radio Harness

Compact, modular adjustable harness for a wide range of applications

- ✓ compact and comfortable: compact, breathable design
- ✓ modular: loop for mounting of an additional holster, due to demand
- ✓ versatile: individual adjustable radio-compartment

CHEST, completed with DIGI Holster; fitted with swivel head lamp and radio

CHEST, completed with DIGI Holster; fitted with two radios

CHEST radio harness (TEE-UU logo is detachable)

## Description

Compact, modular adjustable harness for up to two radios or other equipment, such as torch or mobile

Basic configuration of CHEST Radio-harness provides one individually adjustable device compartment and a zippered document case. Depending on personal demand or situation an additional TEE-UU-holster, such as DIGI or TOOL holster can be mounted at provided loop.

Thanks to its breathable padding, compact design and elastic, individually adjustable carrying straps the CHEST Radio-harness provides high comfort even at longer use.

### Features:

- adjustable radio compartment
- loop for mounting of one additional TEE-UU holster
- document case with zipper
- breathable padding
- elastic, individual adjustable carrying strap
- TEE-UU logo detachable

## Scope of delivery

Harness without further or pictured supplies

## Special feature

TEE-UU logo detachable thanks to mounting with hook-and-loop fastener
