use case:
COM TAC with digital radio

rear: PALS loop system with
metal snap fastener

COM TAC holster

Description

MOLLE-compatible holster for wide variety of common digital radios. Safe storage and easy access to radio are main benefits of the holster.

Main compartment with 4 mm thick padding and fastener with robust buckle guarantee for firm hold of device. Thanks to elastic sides and fastening straps size of radio compartment automatically scales to dimensions of device.

Emergency button on top of device always remains easily accessible, due to divided holding straps. Open design allows to carry a radio with connected speaker microphone.

Fixation of TEE-UU logo with hook-and-loop fastener allows to remove it if required e.g., due to use at field of operation etc.

PALS attachment system provides a variety of carrying options such as attaching to MOLLE-gear (bags or backpacks etc.) as well as to belts

Features:

- padded radio compartment
- TEE-UU logo is detachable: mounted on loop-tape (2.5 x 2.5 cm)

- one-handed opening of buckle
- PALS loop system with metal snap fastener for mounting to MOLLE-gear or belt

PALS:

- 1 strap, with metal bolt snap
- max. of loops that can be woven in: 2

Scope of delivery
