

EQUIBAG Multi-Purpose Bag

Compact solution for transportation of equipment

- ✓ separate and hygienic: main compartment and boot compartment
- ✓ flexible: elastic cord for additional carriage at top of lid
- ✓ tidied up: pocket for Filofax etc.

Separated boots compartment for storage of boots or e.g. wet clothing

pens, small items etc. can be stowed in organizer-compartment

EQUIBAG with integrated backpack carrying system

Description

Equipment must be safely stored when being transported in an emergency vehicle or private car. The EQUIBAG with capacity of approx. 50 liters provides enough space for your personal protective equipment (PPE) or similar equipment.

Boots can be stored in the variable boot-compartment, in order to store them hygienically separated from any other item inside of main compartment.

Detachable reflective stripe provides additional visibility.

Features:

- main compartment (capacity: approx. 50 l)
- lid pocket with zipper
- boot-compartment to store boots or shoes
- front pocket (25 x 35 x 4 cm)
- side-pocket with hook-and-loop fastener (18 x 30 cm)
- reflective stripe; can be swapped
- padded handle
- basic backpack-carrying-system with padded back-panel

Scope of delivery
