

ESCAPE XL Escape Hood Holster

The innovative solution, for having your escape hood always with you

- ✓ large: versatile XL size variant of ESCAPE with extended storage space
- ✓ always with you: important equipment must be with you when you need it!
- ✓ immediately operational: in less than no time at hands and ready for use

Use case:
ESCAPE XL mounted at SCBA

ESCAPE XL: holster and inner bag,
use case with smoke escape hood

ESCAPE XL Escape Hood Holster

Description

Bag for firefighters with SCBA to have escape hood always with them mounted to SCBA and ready for use within a few seconds.

Intuitive operation of ESCAPE XL turns it into a valuable companion in case of a SCBA emergency or for rescue of a victim trapped in smoke. With just one pull at easy to grasp handle escape hood is immediately at hands. Even in situations with zero view or major stress.

Variable size of inner bag makes ESCAPE XL not only suitable for escape hoods, but also for variety of equipment such as an evacuation sheet or other items. In many fire trucks holster can be attached to SCBA while SCBA is stowed in its holder. This saves important time during rigging for operation and prevents important equipment for being forgotten at the fire truck.

Combination of holster and inner bag reduces eventuality of possible contamination of equipment that is stored inside.

Features:

- Holster with cover flap and pull-out handle
- extractable and individually adjustable inner pocket

- 2 adjustable holding straps and 1 exterior textile loop
- reflective stripe, height: 50 mm
