

FIX Glove Holster

For immediate access to your gloves

- ✓ variable: mounting to belt either vertically or in landscape format
- ✓ helpful: inlying compartment for carrying of nitrile gloves
- ✓ compact: firm hold of holster and gloves

TEE-UU logo is detachable

elastic loop for storage of nitrile gloves

Abrasion proof 2-way belt loop

use case: FIX Holster with QUICK Paramedic Belt

Description

Practical holster for secure attachment of your gloves to your belt. Durable hook-and-loop-fastener guarantees for firm hold of gloves, independent of size of gloves.

Furthermore, holster is equipped with a wide elastic loop at interior that allows for attachment of items such as protective gloves. Due to elastic loop items are protected against damage, but are also immediate at hand, when needed.

Thanks to hook-and-loop fasteners TEE-UU branding can be removed, in case equipment without branding or colored areas is required.

Depending on personal preference FIX Glove Holster can be attached to belt either vertically or in landscape format. Close-fitting belt loop guarantees for firm hold of FIX Glove Holster.

Features:

- elastic loop at interior for storage of e.g. nitrile gloves
- abrasion proof 2-way belt loop
- TEE-UU logo is detachable

Scope of delivery

Holster without further or pictured supplies
