GLASSES TAC holster

Description

The convenient solution to safely store (safety) glasses on belt, backpack etc. and also grant quick access to them, when needed.

Padded glasses compartment is ideally suited to hold glasses or safety spectacles up to thickness of approx. 4.5 cm. The slightly stiffened case prevents damage to the glasses.

The lid is secured with a buckle to prevent the glasses from slipping out. For access to glasses buckle can be opened with two fingers.

PALS loop system on the back allows for mounting holster to MOLLE gear or it can be worn on a belt. The robust plastic carabiner at top for attaching to rucksack, chest strap, etc.

The GLASSES TAC is not suitable for holding of over glasses safety goggles, full-view protective goggles etc.

Features:

- padded compartment for (safety) glasses up to thickness of 4.5 cm
- lid with sturdy plastic buckle
- drainage eyelet at bottom of compartment

- TEE-UU logo mounted with hook-and-loop fastener
- plastic carabiner, 360° rotatable
- PALS with metal snap fastener for use at MOLLE-gear

PALS:

- 1 strap, with metal bolt snap
- max. of loops that can be woven in: 2

Scope of delivery
