HMS SAFE-LOCK Carabiner: schematic figure

HMS SAFE-LOCK Carabiner

## Description

Classic pear-shaped aluminum carabiner with triple-locking according to German Fire Services Regulations (FwDV 1). The carabiner is suitable and accredited for the attachment to a safety chain when applying the “munter hitch” (HMS) or similar techniques.

- Maximum safety: triple-locking according to German Fire Services Regulations (FwDV 1)
- Catch free: Latch can be moved precisely and ropes and wires can be quickly and easily hinged and unhinged

### Features:

- opening of the carabiner: 22 mm
- catch-free system

## Scope of delivery

Carabiner without any further or pictured supplies

## Specifications

- certified to: EN362
- breaking load, closed:
  - lengthwise: 23 kN
  - across: 8 kN
- breaking load, open:
  - lengthwise: 9 kN
- dimensions (W x H): approx. 11 x 7 cm
- weight: approx. 90 g
- color: aluminum, polished
- material: aluminum
- art.-no.: 9882-7000
