

# HMS TONDO TG Safe-Lock Carabiner

Ideally suited for rescue and self-rescue with trilock locking mechanism

- ✓ maximum safety: triple-locking
- ✓ no snagging: exact manufactured components
- ✓ certified: EN 362-04:B

## Description

Classic pear-shaped aluminum carabiner with triple-lock. Certified in accordance with EN362 (PPE against falls). Carabiner is suitable and accredited for the attachment to a safety chain when applying the "munter hitch" (HMS) or similar techniques.

Key Lock reduces risk of getting caught at rope etc. at hook or unhook of carabiner.

## Scope of delivery

Carabiner with user manual, without any further or pictured supplies
