Description

Holster is designed for use at technical rescue in order to guarantee immediate access to small items such as marker pens etc..

Thanks to strong, sewn-in magnets at rear, holster can be mounted to a car or any other magnetic surface within one second. Using the handy hook-and-loop holding strap, holster can also be mounted to door handle, mirror etc. and therefore can be utilized also at cars made of new, non-magnetic materials etc.

Large main compartment is equipped with seven small pockets and three elastic loops for important tools needed at technical rescue.

Two drain holes at bottom are dedicated to avoid accumulation of water inside the INSTANT Holster e.g. in rainy conditions.

Thanks to handle, it can easily be opened even when wearing gloves.

Features:

- main compartment with wide opening with:
 - 7 pockets for tools etc. and 3 elastic loops at interior of cover
 - spacious interior

- 2 large, easy to grasp handles for opening of holster
- sewed-in magnets for sticking at cars or magnetic surfaces
- hook-and-loop strap for mounting at non-magnetic objects
- 2 draining holes at bottom for drying of interior
- reflective stripes at front and both sides

Scope of delivery

Magnetic holster without further or pictured supplies
