

QUICK Paramedic Belt

Convenient wearing of holsters and equipment

- ✓ immediately operational: thanks to blazing fast connected two-piece system
- ✓ universally: suitable for mounting of any TEE-UU holster
- ✓ secure: integrated zipper pocket for valuables

complete kit: QUICK Paramedic Belt

QUICK Paramedic Belt with buckle, BELT KEEPER, GLOVE-FIX and INNER BELT

Description

QUICK Paramedic Belt is a noticeable relief in daily use! Attached to belt, holsters can be carried comfortable and equipment stowed inside is always immediate at hand. Construction, consisting of two interacting belts allows for flexible use of belts, depending on situation: small lower belt is used as common belt and provides for wearing comfort of your trousers during on-call time, while upper belt with mounted holsters is lying in ambulance car or wardrobe etc. Upper belt is connected with 50 mm high, strong hook-and-loop system within seconds for use at operations. Four fixation straps, one of them with plastic eyelet, prevent holsters from slipping. Fifth strap with GLOVE-FIX system for holding of one pair of nitrile gloves is included.

Five lengths from S to XXL guarantee for perfect fit:

- S: 70 - 90 cm	- XL: 115 - 135 cm
- M: 85 - 105 cm	- XXL: 130 - 150 cm
- L: 100 - 120 cm	

Features:

- integrated zipper pocket for valuables at lower belt

- suitable for mounting of any of TEE-UU holster
- attachment of upper belt within a few seconds
- easy to open buckle (50mm) at upper belt
- GLOVE-FIX system for fast access to protective gloves
- all-round reflective stripe

Delivery content
