- ✓ comfortable: full-featured and padded backpack-carrying-system
- ✓ applicable: sturdy gliding rails, organizer compartment and removable helmet holder

stowable, full-featured backpack-carrying-system

RAGBAG EVO with detachable helmet holder, use case

Garment bag with hygienically separated boot compartment

RAGBAG EVO, black/red: capacity of approx. 100 liters

## Description

Perfect choice among classical clothing bags, that combines large volume with high carrying comfort and well-thought-out details.

Main compartment offers ample space for extensive equipment, such as complete turnout gear or clothing, etc., for a training course or multi-day assignment.

Boots or wet clothing, for example, can be stored separately in the externally accessible boot compartment. The compartment is made of robust material, is suitable for stowing boots up to size 50 (UK: 15) and is hygienically separated from main compartment.

Additional storage capacity – for example for a helmet or a heavy turnout gear jacket – is provided by the removable helmet holder on the top of the bag. This allows wet or dirty gear to be stored outside the main compartment when the boot compartment is already in use.

### Features:

- main compartment (100 liters) with 2 inlying net pockets
- hygienically separated boot compartment (up to size 50 | UK 15)
- organizer-compartment (H x W: 28 x 36 cm)

- exterior compartment (60 x 35 cm)
- plastic pocket (9 x 6 cm) for labelling
- elastic string on the top to stow a jacket or similar item
- ergonomic carrying handle and slide bars at bottom
- full-featured and stow able backpack-carrying-system
- hook-and-loop straps (38 x 5 cm) at front

## Scope of delivery

Clothing Bag, with backpack-carrying-system, without any further or pictured supplies
