

# RED Paramedic Belt

Your solution for convenient wearing of holsters and equipment

- ✓ immediately operational: thanks to blazing fast connected two-piece system
- ✓ universally: suitable for mounting of any TEE-UU holster
- ✓ secure: integrated zipper pocket for valuables

## Description

RED Paramedic Belt is the colorful version of trusted TEE-UU paramedic belts which is designed for use with modern, colored trousers and uniforms. Attached to belt, holsters can be carried comfortable and equipment stowed inside is always immediate at hand. Construction, consisting of two interacting belts allows for flexible use of belts, depending on situation: small lower belt is used as common belt and provides for wearing comfort of your trousers during on-call time, while main belt with mounted holsters is lying in ambulance car or wardrobe etc. Main belt is connected with strong and 50 mm high hook-and-loop system within seconds for use at operations. Four fixation straps, one of them with plastic eyelet, prevent holsters from slipping. Fifth strap with GLOVE-FIX system for holding of one pair of nitrile gloves is included.

Five lengths from S to XXL guarantee for perfect fit:

- S: 70 - 90 cm	- L: 100 - 120 cm	- XXL: 130 - 150 cm
- M: 85 - 105 cm	- XL: 115 - 135 cm	

### Features:

- integrated zipper pocket for valuables at lower belt

- suitable for mounting of any of TEE-UU holster
- attachment of upper belt within a few seconds
- easy to open buckle (50mm) at upper belt
- GLOVE-FIX system for fast access to protective gloves

## Scope of delivery

RED Paramedic Belt (two-pieces: lower belt und main belt), 4 belt keeper, 1 GLOVE-FIX System; without further or pictured supplies
