

# SNAP EVO Rescue Knife

Just in case!

- ✓ quickly operational: opening with one-hand release-system
- ✓ powerful: durable glass-breaker made of tungsten carbide
- ✓ practical: belt clip for immediate access

SNAP EVO with keyring

glass-breaker made of tungsten carbide with punctate point

knife with integrated belt cutter, glass-breaker and blade made of stainless steel

## Description

Designed for official use, this rescue knife has a 90mm long blade made of stainless steel blade completed with a 30mm long, extreme sharp serration.

Fast and easy to use one-hand release-system allows opening with just one thumb or finger. Blade stays securely locked due to self-locking lock-system.

Including glass smasher made of tungsten carbide and a double-blade belt cutter, SNAP Rescue Knife is a valuable companion at operations, whether when wearing a SCBA or during technical assistance.

Immediate access to knife thanks to a belt-clip made from spring steel. For protection against loss, SNAP is equipped with a key ring for attachment to a holding strap etc.

### Features:

- blade (9 cm) made of stainless steel, thereof 3 cm with serration
- belt cutter and eyelet with keyring
- glass-smasher made of tungsten carbide
- belt clip made of spring steel

## Scope of delivery

Knife with keyring, without further or pictured supplies
