Description

Bag is ideally suited for bringing order into equipment, that should have been stowed away already a long time ago!

Never the less if it is inside storage space underneath the back seat or inside storage area of the vehicle body, bag fits in at various locations. It's made of durable tarpaulin and is equipped with two lateral handles. Plastic pocket in business card format on top allows for individual labelling.

Spacious main compartment is equipped with three small lateral net pockets of different size. Two further net pockets with hook-and-loop fastener as well as a large compartment e.g. for note pad etc. at underside of cover provide for good clarity.

Features:

- large main compartment with:
 - 3 small laterally arranged net pockets
 - 2 net pockets with hook-and-loop fastener at underside of cover
 - 1 large pocket with hook-and-loop fastener strap at underside of cover e.g. for clip board (max. paper size: DIN A4 format)

- hull made of tarpaulin
- (plastic-)pocket in business card format on top
- 2 carrying handles
- robust two-way-zipper

Scope of delivery
