TABLET-FLAP: use case

TABLET-FLAP filing solution for tablet-PC

Description

Modern command and control tools such as tablet PCs are on the advance, however adequate storage during operations remains a problem.

The TABLET-FLAP provides safe storage for your tablet PC as well as immediate access to device.

Thanks to three flaps with hook-and-loop fastener at rear the tablet holder, size can be infinitely adjusted to accommodate wide range commercially available tablet PC with a size of up to 28 x 19 cm. Sensitive but robust PVC protective cover protects the tablet PC from dirt and possible damage, yet the touchscreen remains operable.

Compatibility:

Suitable for commercially available devices up to size of 28 x 19 cm

Features:

- 2-hole punch with durable metal eyelets
- hook-and-loop flaps for infinite adjustment of size
- built-in plastic plate for additional protection

Scope of delivery

TABLE-FLAP without further or pictured supplies
