- ✓ secure hold: inner compartments individually adaptable and lockable
- ✓ flexible: holster can be worn upright or across

TWIN Holster: use case

TWIN Holster: rear

TWIN Holster: front view

## Description

Two in one, for storage of torch and multi tool or rescue knife together in one holster, but in two separate compartments.

TWIN Holster is successful combination of the tried and tested TOOL holster and LED holster. Its two compartments can be individually adjusted to requirement of stored items and be opened separately. Every compartment is equipped with the plastic ring at bottom for protection against unintentional switching on of the TEE-LIGHT flash-lights, which is well known from TEE-UU flash-light holsters. Small side-on elastic pockets provide space for storage small items

Thanks to fixation of TEE-UU logo with hook-and-loop fastener, it can easily be removed if required, e.g. due to field of operation etc.

Belt loop allows for both, vertical or horizontal attachment of holster to TEE-UU paramedic belts.

### Features:

- 1 pocket e.g. for multi tool or rescue knife with hook-and-loop strap
- 3 further compartments

- 1 front pocket with cover flap
- 1 GLOVE-FIX system
- abrasion proof 2-way belt-loop

### Product details:

- inner dimensions of each compartment: 4 x 12 x 2.5 cm
- height of compartments adjustable from 10 up to a 14 cm

## Scope of delivery

Holster without further or pictured supplies
